

# EXPERIENCE FREEDOM FROM IT WITH HOSTED DESKTOP

## **FREEDOM TO TAKE CARE OF YOUR BUSINESS**

With hosted desktop you get all the benefits of a Fortune 500 IT infrastructure with 99.999% reliability and virtually no downtime. Instead of dealing with IT distractions you are focusing on what's more important—your clients and your business.

## **FREEDOM FROM MANAGING THE NETWORK**

Eliminate the costs and risks of managing the IT operations in-house or hiring an IT consultant. Hosted desktop from Network Alliance provides round-the-clock, US-based customer support. We monitor, manage and maintain all servers, networks, software and desktops. The most up-to-date full version of software is always readily available.

## **FREEDOM TO WORK FROM ANYWHERE**

Hosted desktop gives you total flexibility to access your desktop anytime, anywhere, on any device because it uses the Internet to secure your data and store your files. You are no longer tied to the physical PC sitting on your desk and instead can securely access your desktop from a laptop, tablet or a Smartphone from any location including your client's site.

## **FREEDOM FROM COSTLY, UNPREDICTABLE IT EXPENSE**

Network Alliance hosted desktop is offered at a cost per seat averaging 30% less than what many accounting firms typically pay for IT today. With our 30-day contract, you pay a predictable monthly fee with no hidden or surprise costs. Network Alliance provides a

complete hosted desktop solution including over 650 desktop applications, secure data back-up and 24-hour US-based support. Unlike other cloud IT providers that only solve part of your problem, Network Alliance offers a worry-free turnkey solution.

# NOW BE FREE FROM IT WITH HOSTED DESKTOP FROM NETWORK ALLIANCE

“As a Network Alliance client, reliable remote access to a centralized, secure network is inherent in their solution. I can log into my files from anywhere. I have support for my email and PDA, and I have access to their technical team 24 hours a day to ensure I am always available for my clients.”
